The playboy meets his match!

By Cdnhertz

Camilla and Marcus' story. Following in the same footsteps as the author's previous novel, this one follows through the meeting of soul mates (Cami and Marcus) and takes them through the trials and challenges of their happily ever after. Shayde and Dawn make an appearance in this book as well (will we get more on their story??). Marcus is a playboy who gets set on his backside after seeing his mate for the first time at the hospital and follows her to make her his. The author paints a picture of both of them and Marcus is truly droolable. Cami is sweet and innocent and has a power thatwell.....you'll have to read it to find out :) Definitely looking forward to reading another one of Krissy Daniels books! ***Reviewer for Paranormal Romance and Authors That Rock.

Glad I took a chance

By Janet

I am not a regular reader of paranormals. I have read other books by Krissy Daniels though, and have been impressed by her writing skills. So, in spite of the genre, I found this book to be well plotted and to have an engaging cast of characters. The passion factor is high and fans of the series, the genre, or the author will not be disappointed. I am glad I took a chance. It is part of a series however, and I was a little at sea for a bit in the beginning.

Potential!

By ReadingIsSexy

The Good: I was pleasantly surprised to receive this from Netgalley as an ARC. I'm a big fan of paranormal romance, and this is one of the better efforts I've read lately! The story sucked me in and I had to leave in the middle of reading it, but was anxious to get back and finish. I liked the world that the author has created, though I wish I knew a bit more about it (I've not read the first book in the series and still enjoyed this book #2). The characters were interesting and engaging, as was the storyline, so I think this series has great potential, especially as the author grows as a writer.

The Bad: The book was a tad uneven. The story was really interesting, but I really wish there was more depth to the scenes. We are whisked from one place to another and not always really sure why. Scenes that are very important (the H/H's 1st real fight, the climax with the missing heroine, etc) are much too fast and occasionally leave you wondering what exactly happened. It didn't limit my enjoyment of the book, but more in depth scenes would make a more emotional impact as well as taking the books to the next level.

Bottom line: Worth giving a shot – author/series has great potential!
