Not 100% Piano-friendly

By Brad Michaelson

I bought it for piano but it's oriented more for voice and other instruments. So just a little heads up for those of you looking for straight piano music that there's probably a "better" alternative. Still good, we're adapting and their music is excellent.

Great. I am terrible at the piano

By Oenone Scott

Great. I am terrible at the piano, but this book wasn't too complicated. I can't play most the pieces, but the bits that I can make me very happy.

This book is great. It has all the hits and some that my boyfriend had never really heard of. The notes are clear and easy to follow and it makes a great gift to any piano player!
