This way, you could really make a selection that is served to obtain your personal e-book on the internet. Below, be the first to obtain guide entitled [Kemet 101: An Introduction To Ancient Egyptian History And Culture By Perry Khepera Kyles Ph.D](#) as well as be the first to understand how the author indicates the notification and expertise for you.

KEMET 101: AN INTRODUCTION TO ANCIENT EGYPTIAN HISTORY AND CULTURE BY PERRY KHEPERA KYLES PH.D

PDF

In Kemet 101 Dr. Kyles brings to life one of the most misunderstood cultures in human history with a wide range of images and methodologies. Kemet 101 dispels several myths, including the myth of an Asiatic origin of Nile Valley civilizations. Kemet 101 should be read by all with an interest in Ancient Egyptian History or African History in general. It is an excellent resource for beginners, teachers, and those already familiar with the subject. Topics addressed include: The Ethiopian and Sudanic origins of the divine kingship concept and the Ausarian (Osirian) Resurrection; The moral and spiritual beliefs of ancient Egypt; Ancient Egyptian writing systems, including the Medtu Neter (aka hieroglyphs); the plight of political figures such as Seqenenre Tao, Queen Aahotep, Hatshepsut, and the Nubians of the 25th Dynasty; and the stolen legacy of Ancient Egypt.

excellent

By Rathaël G. Fambro

the succinct analysis of African Kemet, I've encountered. Gives great research, and exposes a lot of misconceptions, lies, ignorance, surrounding Ancient Kemet, and other Ancient African locations. A must read for those who want a concise, but well researched document, on Kemet.

6 of 8 people found the following review helpful.

Good topic, confusing writing

By Sienna S'Zell

Although the topic is certainly in the forefront of Egyptian prehistory right now, this book was difficult to read in part because of faulty proofreading. Even the cover subtitle needed to be set differently, to join the ranks of well-put together books. A slim book with large type, the text is confusing -- jumps from one topic to another, from south to north, from era to era with no clear transitions.

I also found the b&w photos fuzzy and not fitting well with the text they are shown within. Also, a good suggestion to the author for the next book, maybe: gather photos together, and have the text end at a conclusion, instead of leaving the reader to turn page after page of photos to read the end of the sentence.

I gave it one star for effort. We need this information today. However, I found Stephen S. Mehler's "The Land of Osiris" easier to read and understand,

A great book of a Stolen Legacy!!!

By URob

Europeans have stolen heritage and history for centuries...it is time to bring our history back.
