Canon 7D Tips
By Marcelino Maldonado
Usefull guide to everyday features of Canon 7D and other less used features, contains tips for specific photo shooting situations also tips for Photoshop editing

4 of 5 people found the following review helpful.
The parts about the 7d are good
By Austinbat
The title indicates that this is about the 7d, but there are a few sections only of very good information about settings. The rest is mainly information about Photoshop techniques. Those parts are also good, but I bought the book so I could read about the 7d, and was disappointed to find so little about it here.

3 of 4 people found the following review helpful.
Too much photoshop info.
By kbrn
This is a very good book regarding 7D settings, but then he goes into a lot of Photoshop info, which I do not use. I think at least 1/3 of the book was about photoshop.
