Excellent book.

By guitar johnny

5 complete songs are included, the rest are excerpts .Thankfully this not not a rehash of other books and Chad Johnson covers a wide span of Mr Ford's wonderful career.The book looks well set out.my only gripe is the backing tracks for the full songs....you are provided 4 small segments of the tracks and then wait for it a full track with all the guitars included but NO FULL BACKING TRACK without guitars. This makes no sense at all....Why a full track without the guitars included is omitted is nonsensical. This would surely be essential once you learn the song in its entirety. I have to say this could have been a much better book if they included the backing tracks...Hopefully Hal Leonard can rectify this problem. I have purchased other books by Chad Johnson and they are all very good as is this particular book. I would give this 10 stars if it had the full backing tracks.
