Everyone's excited about the prom except Ashley, who couldn't care less. She's too busy worrying about her crazy family and TJ her flaky boyfriend, who wants them to move in together after graduation but just doesn't seem to be around when she needs him. But when disaster strikes the prom committee, somehow Ashley gets roped into helping save the evening. And Ashley finds herself learning a little about making a prom happen - and a lot about making life happen.

That represents that moment in life when things change. You don't know it but it happens.

It took me longer than usual to warm up to this story, probably cause it took me a while to warm up to Ashley, the main character. I was never one of the "normal" girls in high school (to borrow a term from the author), so a girl whose 'only' interest is her boyfriend and nail polish... But then, what's that word, normal? There's obviously always more to any L.H. Anderson books, and that's why I love her YA stories so much. I love her voice and I've loved to discover the true Ashley, as she took charge of (saving) the Prom (for which she had no interest at the time), she took charge of her own life. That book is beautiful because it represents that moment in life when things change. You don't know it but it happens. Ashley went from being a girl dreaming a fantasy life, to a girl ready to build a real one. She found out what she really wanted, or more accurately, what she did not want to be. It's the start of her adult life, right there.
