Abrupt Ending

By Tabatha Moore

I have enjoyed reading all of the books in the series. From the time I started the first one I could not put it down and didn't want to wait for the next one to come out. That being said, I hated how this book ended. I read on a tablet and I felt blind sided that I was at the end of the book. I felt like I was in the middle of the book and was looking forward to the next chapter and then nothing....Coming soon....I am guessing that there will be another book, but that was not on the list of books coming soon either.

I loved the last book of the series

By Jamie

I loved the last book of the series. For the customers who are complaining about not knowing what's going on, it's because this book is apart of a series. I thought it was a sweet ending to what the series is about. I'm glad to have see Oakley living life and happy rather than the doom and gloom it started out to be. It would have been nice to have this be a longer, final book to the series but the short story is just fine. Awesome, quick read if you want to see where the characters lives are after Jaspers story.
