Several thousand ethnic Germans in Romania, (the so called Volksdeutscher) were drafted into the Waffen-SS in 1943. With these new troops Himmler built up the new 11th Waffen-SS Division. To fill the ranks Division Nordland also took over battalion strength units from Danmark and Norway, though ninety percent of the division were Volksdeutsche from Romania. They were first used in combat in Croatia, the Oranienbaumer, Estonia, and Latvia. After the Soviet attack in Pomerania they fought in Berlin and were destroyed there.

More than I expected

By Christopher Streeter

As soon as I opened the box and pull this book out I immediately started reading it. All I could do is say "WOW!" This book went beyond my wildest expectations.

The biggest bit of praise for this book should go for the well laid out and very detailed appendixes. This has everything that one would want in a book about a particular unit. Not only the OOB well laid out but the commanders are given too.

Thanks Rolf for writing a great piece of research here.

Great book on the history of the 11th Volunteer Panzer ...

By Randall Owens

Great book on the history of the 11th Volunteer Panzer Grenadier division Nordland. Detailed accounts covers the division from beginning to end. What makes this a real stand out are the many original photographs donated from actual members of the division that were used throughout the book. Most were never published before, and lot of new detail and history shows in the writing as seen from the German side of this elite division.
