I really liked it, however

By Jane Northrop

I read this whole series... I really liked it, however, I could not give it five stars. I went to look at her other books and realized she is a "chapter" book writer and each "chapter" is \$2.99 each and I have seen some authors with more than a dozen "chapters" I am not paying that much to read a book not to mention the time you have to wait in between chapters. I guess it is a way to sell more books and make more money. This series alone would have cost \$38 which is ridiculous (in my opinion). I have been running across these authors who write "chapter" books like this series.... a lot lately.... the first one I stopped reading when I realized there was close to 30 and more to come. I was able to read this complete series in another chapter book author's latest chapter. The only reason I read this other author's chapter books is because her books are on Kindle Unlimited. None of this author's books are KU which means I will not be reading anymore of her books unless it is a bonus in another book. As I stated it was very good but not worth \$38. For this reason I

am only giving 4 stars.

Great Read, minues the price

By Amazon Customer

I read this entire series in a box set that featured multiple authors that was available via KU. The story was excellent! It was well thought out and well executed. The writing style was strong even with the few errors it had, the characters were well developed and believable, and the storyline made sense. With that said ... I am glad I read it via KU, because no way I would have paid \$2.99 per part for the total of 13 parts. The 13 parts altogether equal up to approximately the length of 4 novels, and while these are good, if I look at it from a novel standpoint, they aren't worth \$10 each, sorry.

The Debt 13

By Kindle Customer

I really enjoyed this series. Each couple's story and their fight against Club Alpha was well told. I just don't have the patience to wait so much time before the next book came out, in addition to trying to keep up with the number of books after 10! Another author is on book 26 and I will never again read anything from her. Kelly Favor is a good write, I just think she needs a good proofreader.
