Review

Dr. Lev and Anna Goldentouch have the ability to make difficult concepts clear in an easy to follow, well laid out and organized manner. One of the main techniques they teach is speedreading. Speedreading is a scientifically verifiable art and only the likes of Lev and Anna could convince me to try it. Plus, they have taught me new things about the art of memory that I will cherish and share for the rest of my life. Together, their instantly applicable lessons in learning make *The Key to Study Skills* invaluable.- Anthony Metivier, Ph.D., MagneticMemoryMethod.com

Have you ever felt like you don't study well or retain any information you read? Or maybe you do but want to be faster at it? *The Key To Study Skills* gives you all the tools, techniques, and tips to help you do just that. This book is jam-packed with information, from how to improve your memory, to speed reading, to how to study and learn better in general. This book is your one-stop shop to becoming a studying MACHINE!- Nelson Dellis, Three-time U.S. memory champion

From the Author

Anyone can read 1000 words per minute and remember 80% of the text for the rest of his life. The tricky part is having guidance, motivation and perseverance to learn speedreading. This book is a result of hard work and lessons learnt by our 40 000 students. With its help, you are able to multiply your reading speed and memory skills. We hope that speedreading and memory training will be as joyful and fruitful for you, as it is for us.

About the Author

The Key to Study Skills is an advanced guide filled with powerful strategies to double your reading speed, improve your memory, and dramatically increase focus. Written by the husband-and-wife research team behind the #1 bestselling online course and book "Become a SuperLearner," this book includes everything

you need to achieve a reading speed of up to 1,000 words per minute – and remember almost everything while you do it. At this speed, you could read Harry Potter and the Sorcerer’s Stone in just 77 minutes. The Bible would still take 13 hours, though. In today’s information-driven society, effective learning is, quite simply, the key to a successful career and a happy life. As the demands on our learning capabilities continue to grow and outpace our old learning methodologies, there becomes an ever more pressing need for advanced memorization methods, speed reading techniques, and analytical thinking to multiply our learning and creative potential. Similarly, we can use these same techniques to overcome both perceived and diagnosed limitations to our learning skill-set. Though a bit more in-depth and less rigidly structured in it’s approach than our entry-level course and book, the skillset taught by this book can be adopted by anyone - beginner or novice. Even students who suffer from dyslexia, ADHD or other learning disorders can acquire speed reading skills, and in fact, they often report improved focus and increased joy from learning. For the last decade, learning enthusiasts Anna and Lev Goldentouch have taught thousands of students, culminating in the blockbuster course created in collaboration with one of their star students, Jonathan Levi. For the 50,000+ students who have sought it’s very deliberate, guided, and step-by-step approach, Become a SuperLearner has been and remains a tremendously powerful resource. However, for autodidactic students seeking more advanced techniques and a less rigid structure, They Key to Study Skills offers a new and unique experience. Each of the most challenging student questions, as well as every difficulty encountered through thousands of hours of research has been crystallized into this advanced book.

Great system for increasing reading speed and study skills!

By KMcKinzie

For the first time I have been able to increase my reading speed after taking numerous "speedreading" courses. The phenomenal aspect of The Key to Study Skills is the authors teach their system of study skills in a clear, easy to follow manner. By actually doing the exercises and being persistent, I have been amazed at my ability to remember what I am studying. I have "gone back to school" and therefore was looking for a way to get through the voluminous reading assignments. Thankfully I found Dr. Lev and Anna's book. I would suggest this book for anyone who wishes to increase their ability to study well, remember what you study, increase your and reading speed.

4 of 4 people found the following review helpful.

By far the best book on speed reading and memory improvement!

By Seungmin Oh

By far the best book on speed reading and memory improvement. I became interested in speed reading a few months ago after taking Superlearner Udemy course. The course itself is very comprehensive and useful, but I think that this book contains more detailed examples and guidelines.

Anyone who is struggling with their school or work should read this book. You won't regret your time

invested.

I bought the Superlearner book a while back and had ...

By Julie

I bought the Superlearner book a while back and had a lot of questions about the material. This book goes into much further detail and is very helpful. This book is definitely worth your time and money, especially since it's only \$3 on a Kindle.
