THE LIBERTARIAN MIND: A MANIFESTO FOR FREEDOM BY DAVID BOAZ PDF

A revised, updated, and retitled edition of David Boaz's classic book *Libertarianism: A Primer*, which was praised as uniting "history, philosophy, economics, and law - spiced with just the right anecdotes - to bring alive a vital tradition of American political thought that deserves to be honored today". (Richard A. Epstein, University of Chicago)

Libertarianism - the philosophy of personal and economic freedom - has deep roots in Western civilization and in American history, and it's growing stronger. Two long wars, chronic deficits, the financial crisis, the costly drug war, the campaigns of Ron Paul and Rand Paul, the growth of executive power under presidents Bush and Obama, and the revelations about NSA abuses have pushed millions more Americans in a libertarian direction. *Libertarianism: A Primer*, by David Boaz, the longtime executive vice president of the Cato Institute, continues to be the best available guide to the history, ideas, and growth of this increasingly important political movement - and now it has been updated throughout and with a new title: *The Libertarian Mind*.

Boaz has updated the book with new information on the threat of government surveillance; the policies that led up to and stemmed from the 2008 financial crisis; corruption in Washington; and the unsustainable welfare state. *The Libertarian Mind* is the ultimate resource for the current, burgeoning libertarian movement.

This book is great. I consider my political views "ever-changing" and I have been wanting to explore the philosophy behind libertarianism. This book is a wonderful primer. It explains libertarianism in a simple, straightforward way. The book doesn't pander left, right, up, or down. I consider it to be fair. I would highly recommend.

Give Freedom a Chance

By Marvelous Mal

Americans are tired of the two-party system of political racketeering. The Republicans and Democrats use

tax money as a criminal slush fund to obtain and wield power, not for the benefit of the country, but for their parties. Boaz lays out how Libertarians approach the world from a "Live and Let Live" perspective.

Were the current system working, the Libertarian approach might not be so appealing. But the current system is broken, starting with the most corrupt, secretive, and lawless president ever to have served. Freedom has a way of curing ills, social and economic. Freedom has not been tried and found wanting, it has not been tried at all. We've tried every other failed, cockamamie idea and program. Now, let's Give Freedom a Chance.
