"Long overdue, Layli Phillips' *The Womanist Reader* is a pioneering text that illuminates the genealogy of womanism and its complex meanings. Phillips' articulation of its connections with and departures from both 'feminism' and 'black feminism' is cogent and provocative. This anthology lays the groundwork for future scholarship on this little understood analytic construct, but critically important intervention in the broad project of social justice."

Sourcebook : contemporary Africana women's intropective and worldview.

By Greer C. Ifatoki-sillah

The Womanist Reader is an excellent compendium of contemporary womanist scholars and theorists' worldview as women. The sources and viewpoints are vaied, i.e. from several diciplines and universities. The articles would be difficult to access, if Dr. Phillips had not mined and collected them for this compendium.

This volume is absolutely necessary for any contemporary woman of African descent who's looking to enhance/enlarge her views on the roles of Africana women in the 21st century.
