I prefer my anarchism without choas

By Dana Garrett

Readers can easily expect that an anthology of poetry about anarchism might be difficult to assemble given that few identify themselves as anarchists or write about anarchist themes. Yet somehow *Visions of Poesy: An Anthology of 20th Century Anarchist Poetry* manages to cobble together 267 pages of versification.

I say "versification" because many of the entries do not qualify as "poetry" by any reasonable definition of the term except for their end-stopped lines. The tragedy is the anthology's evident lack of poetic values unintentionally reinforces the erroneous notion that anarchism promotes chaos. Quite the opposite in fact. Anarchism promotes the order that results from mutual and fully-informed consent. It opposes imposed order.

Apparently, in their zeal to create the impression that anarchy generates considerable poetic activity, the editors have left the impression that anarchism hasn't produced much poetry that is worthwhile. A much shorter work retaining the few gems this anthology contains would have benefited this work and anarchism better.
